Subject: FW: Help Define the Future of the Capitol Lake/Lower Deschutes Watershed!

Good morning,

The Department of Enterprise Services has opened the scoping period for the Environmental Impact Statement for Capitol Lake / Lower Deschutes Watershed. There are several ways to hear information and offer feedback, with two in-person meetings on October 10 and October 22 (details below) and an online open house that you can peruse in your own time [CapitolLakeWatershedEIS.participate.online](#). The scoping period is longer than most (48 vs. 21 days) but ends November 13, 2018. A scoping report will be issued in January, 2019. Through this step, scoping means to offer an opinion about what should be included in the Environmental Impact Statement (EIS). The draft EIS is preliminarily set to be released in mid-2020 and will be the another chance for review and comment from the public.

If you have questions, please email info@CapitolLakeWatershedEIS.org

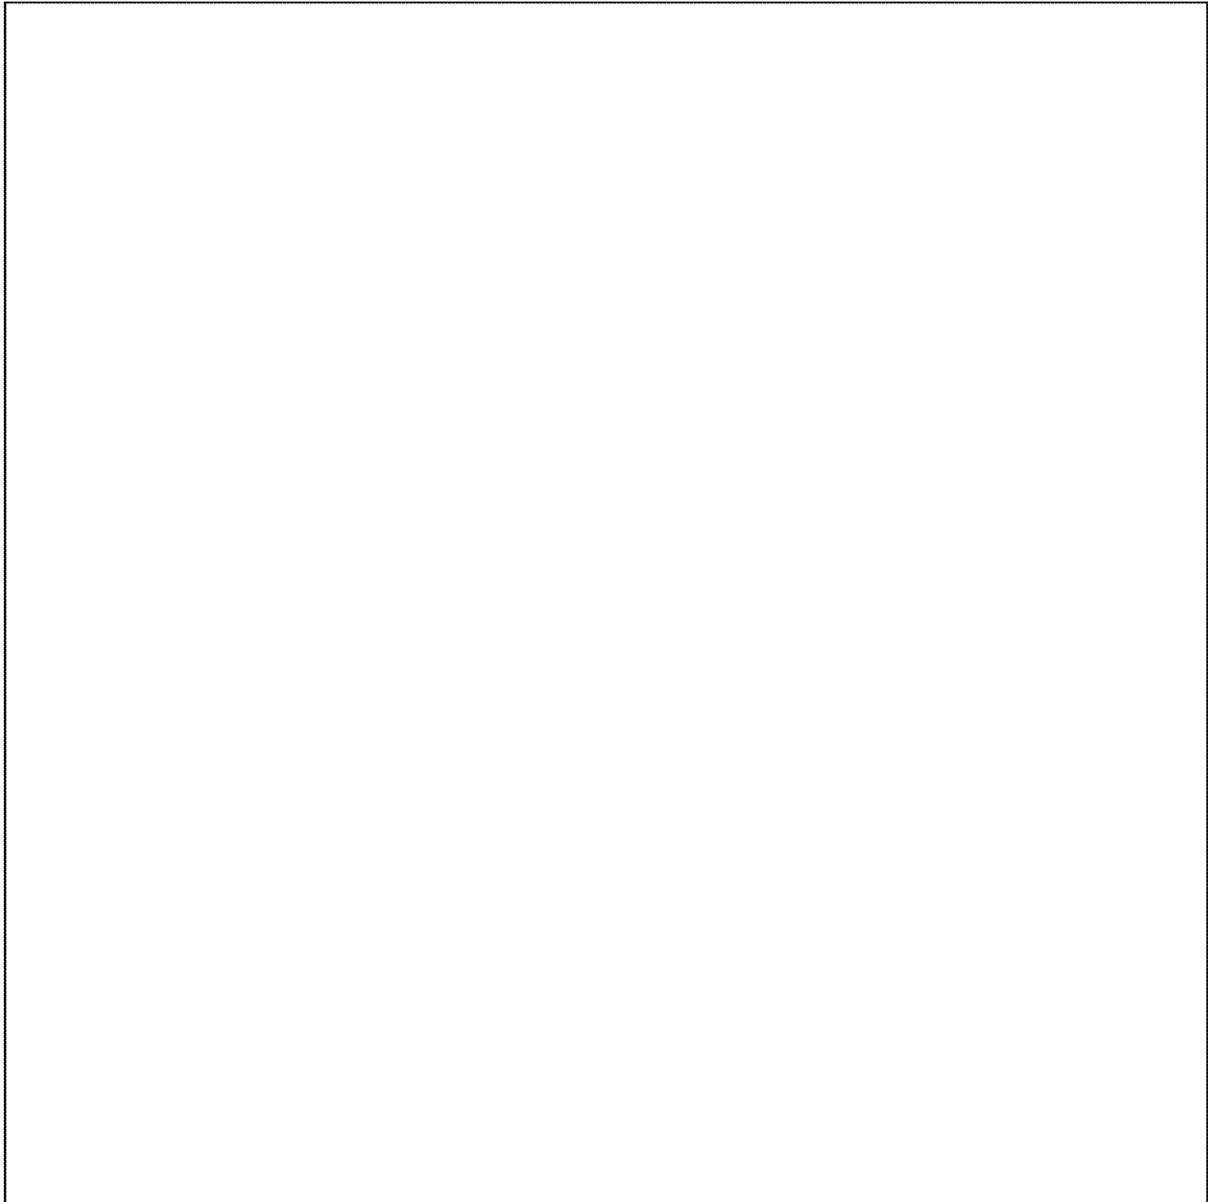

Thanks and take care,

Amy

HELP DEFINE THE FUTURE OF THE CAPITOL LAKE/LOWER DESCHUTES WATERSHED!

Long-term management strategies and actions are needed to address issues in the Capitol Lake basin and surrounding watershed.

An Environmental Impact Statement (EIS) is being prepared to document the potential environmental impacts of various alternatives and determine how these alternatives meet the long-term management objectives identified for the Capitol Lake/Lower

Deschutes Watershed. The primary alternatives to be evaluated, at a minimum, include:

- Managed Lake
- Restored Estuary
- Hybrid
- No-Action Alternative (required in an EIS)

Scoping comment period has begun

The first step of an EIS is called scoping. During this phase, agencies, tribes, local communities, organizations and the public are asked to comment on what should be analyzed and considered in the EIS.

We want to hear from you now!

You have an essential role to play in the Capitol Lake/Lower Deschutes Watershed Long-Term Management Project EIS process. Please visit our online open house and/or attend an upcoming public meeting to learn more about the project, EIS process, and how to submit your comments by **November 13, 2018**.
